

General Managers Report—Open Meeting—May 28, 2015

LLPOA Messaging and Communications:

Communicating with LLPOA members will soon be enhanced with a refined policy and new procedures for sending out important and community related messages. In conjunction with overhauling portions of the website, a new section will be included that enhances the website. The new section will provide data of “official” actions, messages and related content of the Board as well as the office. Members will be able to clarify information and see the priorities of Board actions as acted upon under the Official Business Section. Please check the website in the coming months for updates and announcements regarding the new communications efforts to keep all members informed about the LLPOA.

As part of the new communication effort, a new web address has been secured. www.lakelatonka.org is now functioning. Both the old and new web addresses will point to our website.
